

Civils Project Manager

Location: Greater Dublin Region

TRIUR Construction is seeking an experienced **Civils Project Manager** to lead delivery of a landmark infrastructure project in Dublin. The successful candidate will play a central role in managing our works on the **Liffey Valley to City Centre Core Bus Corridor Scheme**, part of the BusConnects programme – a once-in-a-generation investment in sustainable transport.

As part of this scheme, TRIUR Construction has been awarded the contract to construct a series of **retaining structures** required along the corridor to enable road widening and route upgrades. This is a high-profile project of significant civic importance, designed to improve public transport reliability, pedestrian safety, and cycling infrastructure across west Dublin into the city centre.

We are seeking an ambitious and detail-driven Project Manager, ideally based in the **greater Dublin region**, who can deliver complex civil engineering works to the highest standards of **safety, quality, budget, and programme**.

Key Responsibilities

- Take full ownership of project delivery, from mobilisation through to handover.
- Lead the planning, programming, and execution of retaining wall construction and associated civils works.
- Manage health & safety compliance in line with company procedures and statutory obligations, ensuring a positive safety culture.
- Oversee quality assurance, implementing inspection and test plans, ensuring workmanship meets TRIUR's high standards.
- Co-ordinate design management and technical submittals, resolving design issues in collaboration with consultants and statutory bodies.
- Produce and monitor construction programmes using appropriate planning tools.
- Prepare and present regular progress, quality, safety, and financial reports to stakeholders.
- Manage procurement of subcontractors, materials, and services, ensuring timely and cost-effective delivery.
- Build strong relationships with clients, consultants, local authorities, and the community.
- Lead, mentor, and develop project teams, setting clear objectives and ensuring effective communication.
- Anticipate risks and implement mitigation strategies to keep works on track.

Candidate Profile

Essential Skills & Experience

- Proven track record as a Project Manager in civil engineering, ideally with experience on urban infrastructure or transport schemes.
- Strong leadership, organisational, and problem-solving skills, with the ability to manage multiple workstreams.

- Excellent knowledge of health, safety, environmental, and quality management systems.
- Proficiency in planning and project management software (e.g. MS Project).
- Strong commercial acumen with ability to monitor budgets, contracts, and costs.
- Clear and effective communicator, able to liaise confidently with stakeholders at all levels.

Desirable Attributes

- Chartered Engineer or equivalent professional qualification.
- Experience in retaining structures, road widening, or similar civils packages.
- Previous involvement in projects of significant public visibility or complexity.
- Familiarity with the BusConnects programme or other major Irish transport infrastructure schemes.

Why Join TRIUR Construction?

- Opportunity to lead a high-profile project shaping the future of transport in Dublin.
- A supportive, collaborative culture focused on safety, quality, and innovation.
- Competitive salary and benefits package.
- Career progression and professional development opportunities within a growing business.
- The chance to make a lasting impact on one of Ireland's most ambitious infrastructure investments.

How to Apply

If you are motivated by challenge and inspired by the opportunity to deliver essential public infrastructure, we'd love to hear from you.

Please submit your CV and cover letter to **info@trieurconstruction.com** quoting *Civils Project Manager – Liffey Valley Corridor*.
